

Middle School Math Textbook Adoption

The PAUSD Middle Schools are in the process of selecting new Math Textbooks. PAUSD Math teachers have selected two sets of textbooks to pilot this year: *Big Ideas* and *Math in Focus*. Examination copies of both sets of textbooks are on display in the Terman office.

We invite interested parents and community members to take some time to look through these materials and let us know what you like and why you like it. Your input is valuable to the selection process. Feedback forms are available in the office near the materials on display.

We will be finalizing our selection in January, and with your help, will have new math textbooks in the classrooms for the 2017-2018 school year. Thank you.
